

Certificate CH08/0768

The management system of

UMEB S.A.

104 A, Timisoara Blvd., Building M1-M2-M3, District 6, Bucharest, 061334, Romania

has been assessed and certified as meeting the requirements of

ISO 14001:2004

For the following activities

Manufacturing, repairing and reconditioning of electric motors, including flame-proof, AC and DC motors, three-phase synchronous generators and gensets. Research and development in other natural sciences, engineering and electrical installation works. Electrical equipment repairs (technical assistance and maintenance for electrical motors, generators and gensets).

This certificate is valid from 15 June 2014 until 14 June 2017 and remains valid subject to satisfactory surveillance audits.

Recertification audit due before 2 June 2017

Issue 3. Certified since June 2008

This is a multi-scope certification.

Additional scopes details are listed on the subsequent page.

ISO 14001:2004

Issue 3

Additional scopes

Assembly related activities (assembling of electric motor drive systems and generators, assembling and commissioning of gensets).

Wholesale of other machinery and equipment (selling of electric motors fitted with special equipment, such as frequency converters, encoders, forced ventilation for DC and AC generators and gensets, tools and measuring equipment).

Manufacturing of other electrical equipment.

Manufacturing of pumps and compressors.

Repair related activities (motor maintenance and repairs).

Installing of industrial machinery and equipment (installing industrial machinery at the customer's factory, dismantling of large machinery and equipment, machinery assembly).

Other building construction equipment activities.

Activities of business and management consultancy.

Engineering activities and technical related consultancy (increasing the efficiency of flame-proof induction motors, generators and gensets through the deployment of scientific and technological research results).

Technical testing and analysis activities (product and material tests, acoustic and vibration tests, full-engine testing machine performance).

Renting and leasing of other machinery, equipment and n.e.c. tangible goods (motors, control and measuring equipment, other machinery and equipment for scientific, commercial and industrial use).

Renting and underleasing of own estate or leased properties (non-residential buildings, warehouses and land).
